PROFILE

I am a results-oriented telecom professional with 5+ years of experience in Network Deployment, Project and Vendor Management, and Quality Assurance. I thrive in high-pressure environments, ensuring a first-time-right approach while upholding safety standards. My collaborative nature and problem-solving skills make me an asset to cross-functional teams. I'm eager to leverage my skills and passion for excellence.

CAREER HIGHLIGHTS

- Skilled telecommunications network specialist with over 5 years of expertise in network distribution, project management, supplier management and quality management.
- Proven track record overseeing installation technicians, including racks, stacks and network equipment to ensure successful deployment of network infrastructure.
- Adept in delivery of routers, optical transport equipment and miscellaneous network equipment, knowledgeable in network equipment.
- Leadership abilities, with a history of providing technical guidance during deployment activities and collaborating effectively with cross-functional teams, including project management, network engineering, and other engineering teams.
- Quality control experience ensures that the project is completed right the first time and adheres to the project SLA and safety regulations.
- Strong analytical and problem solving skills combined with excellent teamwork and communication skills make me valuable in complex distribution projects.

EDUCATION

Bachelor of Information & Technology
University of Mumbai

Graduated, June 2018
Marks 7.1 [CGPA]

EXTRA CURRICULAR ACTIVITIES

- Led the Robo Race Event Team, Jashn-e-Theem (Inter-college cultural and technical festival), Theem College of Engineering, Jan 2018
- Coordinated the Circuit Building Event, Jashn-e-Theem (Inter-college cultural and technical festival), Theem College of Engineering, Jan 2017 Awards & Extra-Curricular Activities (Robotic Competitions)
- Secured 1st position among 72 in the Vice Clutch Event, Technorion - Nationwide zonal competitions organized by IIT Bombay Techfest, Sep 2017
- Secured 1st position among 20 in E.P.L Competition at VYRO 2017 - National Level Intercollegiate Techfest organized by Universal College of Engineering, Vasai, Feb 2017
- Secured 1st position among 240 in Robo-Maze Hunters a National Level Event - GTU Central Techfest 18 organized by Vishwakarma Government Engineering College, Mar 2018
- Secured 1st position among 30 in Robo Race a National level Event in Engineering Fiesta 18 organized by Government Engineering College, Valsad, Mar 2018
- Secured 1st position among 130 in Techno kick - Soccer with Robots - National level Technical Event Footprints X8 organized by the Maharaja Sayajirao University of Baroda, Feb 2018
- Secured 1st position among 40 in Robo Soccer, a National Level Event organized by MITCOE-TESLA 17, MIT College of Engineering, Pune, Sep 2017.

WORK EXPERIENCE

November 2021 - Current

Intra-city Fiber Engineer

Reliance Industries Ltd.

Vapi, Gujarat

- Project Management/Vendor Management/Quality Management Orchestrated the successful completion of a 100KM intra-city fiber project encompassing 5G sites, Fttx, P2S, P2C, and Ring Closure, ensuring 100% quality compliance with a first-time-right approach
- Collaborated closely with project, planning, and O&M teams to execute the project efficiently
- Oversaw and verified project work in collaboration with O&M teams and technicians, guaranteeing the availability of rack space for fiber termination
- Provided timely project progress reports on daily, weekly, monthly, and quarterly bases, maintaining transparent communication and accountability
- Achieved 100% compliance with all legal and statutory requirements and guidelines in daily activities, upholding, 's commitment to safety and regulatory standards
- Played a pivotal role in supporting the ROW (Right of Way) Team and coordinating the execution of pending applications for uninterrupted project implementation
- Implemented rigorous safety practices by reporting near-miss incidents and accidents on sites, conducting daily toolbox talks for vendor staff, and issuing work permits as necessary
- Demonstrated exemplary material management by allocating materials based on team requirements and executing efficient material reconciliation processes
- Provided effective supervision for intra-city construction tasks, ensuring seamless project execution
- Ensured the timely completion of measurement and bill certification, meeting project timelines with precision
- Maintained real-time and accurate data in the graphic information system and other tools and applications, contributing to the accuracy of network documentation and plans

October 2020 - November 2021

Project Engineer

Dinesh Engineer Pvt. Ltd.

Navi Mumbai, Maharashtra

- Successfully managed Light storm NLD projects, covering 100KM with HOTO (Handover to Operations) for multiple routes, meeting or exceeding project timelines
- Assumed ownership of deployments, focusing on cost control, quality assurance, adherence to timelines, and resource optimization
- Established robust liaisons with contractors, vendors, and internal teams to ensure strict adherence to approved standards while maintaining cost-effectiveness
- Provided continuous updates to circle teams, ensuring complete transparency on project progress and feedback mechanisms
- Spearheaded profitable and smooth operations within the assigned area, ensuring all necessary resources, permissions, and support were readily available
- Conducted regular performance reviews of projects, operations, and reporting functions, fostering a culture of continuous improvement.
